## ALLERGY TEST

If the customers are unsure whether they can tolerate the products, test the products Step 1, 2, 4 and brow colour behind the customer's ear 48 hours prior to a treatment. [Clear Glue](#) can be tested by taking some product on one eyebrow. If the skin becomes swollen, red, irritated, or itchy, this is an allergic reaction. In case of an allergic reaction, treatment should not be performed. If the customer only reacts to brow colour, the treatment without tinting of brows can still be carried out. [Organic Conditioner](#) is applied as usual, see 4) under.

## CONTRAINDICATIONS (treatment cannot be performed)

- Eczema of the eyebrows
- Allergies (pollen, product allergy, etc.)
- Medicines for acne
- Is under treatment with cosmeceuticals
- Diabetes

1. Clean the eyebrows with [Lash/Brow Shampoo](#) and dry cotton pads. Alternatively if the client has eyebrow makeup clean with [Lash/Brow Shampoo](#) and moistened cotton pads.
2. **If the client has stiff eyebrows**, apply [Clear Glue](#) with a [Mascara Brush](#) so that the hairs are in the desired direction/shape. If the client does not have stiff eyebrows, go directly to step 3
3. Apply [Step 1](#) with [Mascara Brush](#) by brushing [Step 1](#) all over the eyebrows so the hairs are positioned in the desired shape/direction. Cover tight with [Plastic Protection](#).

### Let the product work for:

- 10 - 12 minutes for thick and non-coloured brows
- 8 - 10 minutes for fine and/or coloured brows

When time is up, remove [Step 1](#) with a Kleenex.

4. Apply [Step 2](#) with [Mascara Brush](#) by brushing [Step 2](#) all over the eyebrow so the hairs are in the desired shape/direction. Cover tight with [Plastic Protection](#).

### Let the product work for:

- 8 minutes for thick and non-coloured brows
- 6 - 7 minutes for fine and/or coloured brows

When time is up, remove [Step 2](#) with a Kleenex.

5. Mix 1 cm [Organic Conditioner](#) + 3 drops of [Peroxide](#) + 1 cm of optional brow colour. The consistency should be creamy. Apply with a lash colour pencil or a [Microfiber Brush](#) over the entire brows. Go over and make the edges of the brows perfect with a

[Microfiber Brush](#) or q-tips (Henna colouring can be performed after 48 hours).

**If the customer does not want to colour the brows only use 1-2 cm [Organic Conditioner](#) and let the product work for 3-5 minutes.**

**Let the product work for:**

4 - 5 minutes for thick and non-coloured brows

3 - 4 minutes for fine and/or coloured brows

When time is up, remove with a Kleenex.

6. Apply [Step 4](#) with a [Mascara Brush](#) by combing the product through the brow and let it work for 2 minutes. Remove Step 4 and with Kleenex. If there is still excess colour on the eyebrows repeat step 6
7. Tweeze/wax the eyebrows.
8. Apply [Keratin Mascara](#) with a clean [Mascara Brush](#) in the desired direction of the hairs. It is recommended to sell a [Keratin Mascara](#) (good earnings) to the customer so that the customer can apply this daily. Recommended applied with [Mascara Brush](#).
9. Use [Brow Pencil](#) (colour Espresso for brunettes and colour Coffee for blondes) to draw into the brows if the customer has little hair in some areas. **Note: do not use too much of this until 24-48 hours.** It is recommended to sell a [Brow Pencil](#) (good earnings) to the customer so that the customer can fill in the eyebrows themselves.
10. Apply [Highlighting Pencil](#) to the bottom of the eyebrows.

**Wipe off [Mascara Brush](#) used in treatment, wrap in a Kleenex and send home with the customer.**

**PROVIDE CUSTOMER INFORMATION ABOUT AFTERCARE:**

- No training/sweat for the next 24 – 48 hours.
- No water, moisture, products, makeup on the eyebrows for the next 24-48 hours.
- Avoid cosmeceuticals on the eyebrows.
- After shower/wash of face: always comb the eyebrows in the same direction as the brow lift.
